SUMMARY

Creative and user-focused **UI/UX Designer** with a **B.Tech in Computer Science** and hands-on experience designing intuitive digital products for web and mobile. Proficient in Figma, wireframing, prototyping, and accessibility-focused design. Adept at collaborating with cross-functional teams to translate business goals into user-friendly solutions.

WORK EXPERIENCE

Digitali360-Marketing Agency, UI UX Designer

January 2025 – present | Hyderabad, India

- Created user-focused wireframes, interactive prototypes, and high-fidelity mockups on Figma for web and mobile applications.
- Tightly collaborated with developers, product managers, and marketing teams to ensure that design solutions met client demands and business objectives.
- Improved responsiveness and accessibility of websites through design element and user flow optimizations.
- Conducted usability testing and user research to confirm design decisions and enhance user experience.
- Managed several client projects in different industries, providing aesthetically pleasing, effective, and brand-aligned designs.

Tools & Skills: Figma, UX Research, Wireframing, Prototyping, UI Design, User Flows, Accessibility Standards

PROJECTS

Alanati Pindivantalu,

June 2026 – July 2026

Website Design and Mobile Responsive Design 📄

- Designed a complete e-commerce website using **Figma** for **Alanati Pindivantalu**, a brand offering authentic Telugu sweets and snacks.
- Created detailed **wireframes, high-fidelity mockups, and responsive design layouts** tailored for product browsing, bulk orders, and gifting options.
- Designed user flows and navigation for multiple product categories including traditional sweets, festive gift boxes, and corporate combo packs.
- Ensured seamless user experience across desktop and mobile views, aligned with brand identity and accessibility best practices.
- Collaborated with stakeholders to refine UX strategy for **bulk ordering** and **custom gift box selections**.

Tools: Figma, UI/UX Design, User Flow Mapping, E-Commerce UX, Responsive Design

Mahavir Skoda, Website Redesign 📄

March 2025 – April 2025

- Redesigned the entire Mahavir Skoda dealership website to improve user experience, accessibility, and modernize the visual design.
- Created detailed wireframes, high-fidelity mockups, and interactive prototypes using Figma.
- Focused on intuitive navigation, responsive layouts, and enhancing user engagement across devices.
- Collaborated with developers to ensure seamless handoff from design to development.

Tools: Figma, UX Research

Proser, App and Website Design 📄

December 2024 – February 2025

- Designed a real estate website and mobile application where clients could post and explore multiple property listings.
- Developed separate user flows for “Buy” and “Rent” sections, including categories like apartments, villas, and plots.
- Integrated search and filter functionality for easy navigation by city, area, and property type.

Tools: Figma, User Flow Mapping, UX Research, UX Design, Real Estate UX, UI Prototyping

Entrepreneur Analysis Information for Business Opportunity

February 2024 – May 2024

- Developed a comprehensive platform for business data management and user interaction.
- Implemented features such as authentication and data visualization for opportunity analysis.
- Technologies: Django, Python, HTML, CSS

Automotive DIY, Website Wireframe

April 2025 – April 2025

- Designed a product website for a client selling DIY tools and equipment for cars, home improvement, gardening, carpentry, and plumbing.
- Created user-friendly layouts and navigation to support quick product browsing and smooth checkout flow.

Tools: Figma, UI Design, E-commerce UX, Wireframing.
